

### **BrainPop Did you know?**

Did you know that your students and their families have full access to BrainPOP while away from school—from any device, wherever they go!?

To keep kids engaged and help ward off summer learning loss, **families can sign up to receive a series of summer learning packets** — staggered throughout the break — with reading, math, writing, and physical fitness activities that are perfect for the season. Let your students' families know before you say goodbye for the summer!
