The month in review...

The first week of school flew by! Students have done a great job transitioning into second grade because they are familiar with switching classrooms and hybrid stations from last year. We talked a lot this week about school rules, class rules, and expectations and I am so proud of my students for the positive choices they have been making to start off the school year!

Reminders

- If you haven't done so already, please **sign the handbook** at the front of your child's agenda
- You may send in **ear buds** for your child to use with their computer this year
- Please send any **lunch money in an envelope** marked with your child's name and my name

Looking Ahead...

- Mark your calendars: Back to School Night is Tuesday, September 8
- Over the next couple weeks, we will complete our beginning of the year STAR assessments
- Our first science topic of the school year will be Solar Systems! I am looking forward to studying this topic with my students during the month of September.
